

Certificate of Value - Plan Reviews

Certificate of Value Instructions

Note: All commercial permits require a Certificate of Value.

Scope of Work and Project Values: Permit applicants must indicate whether the scope of work and values submitted are initial or final and sign the form. Initial values should be within 80% of the expected final value. Final values must be the contract value of all work performed, including change orders.

Structural Permits: Applicants must complete the Project Value line and show a breakdown of the component trades for Electrical, Plumbing, Mechanical, Fire Sprinkler and Fire Alarm. Project Value is the total of all construction work the permit was issued for (including overhead and profit), as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems and any other permanent equipment.

Plumbing/ Mechanical/ Electrical Permits: Applicants must complete only the lines appropriate to their contract. Structural items, if included in the contract, may not be subtracted out for fee calculation. All items covered by the appropriate code(s) must be used for fee calculation, including items such as process piping, medical gas piping, and any permanent equipment.

Project Information

Status of Permit

Initial or Final

Project Address: _____

Contractor/Applicant: _____

Owner/Tenant: _____

Scope of Work:

Permit Types

Total Project Value: Used to calculate fees for the building permit. Project Value is the total value of all construction work for which the permit will be issued (including overhead and profit), as well as finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems and other permanent equipment.
